

Foreign Language Academies of Glendale

FLAG/Spanish, FLAG/German, and FLAG/Italian are 90/10 dual immersion programs; FLAG/Korean is a 50/50 dual immersion program. The goal of dual immersion programs is to have both native English and native speakers of the target language learning all subjects together in both languages; thereby, acquiring bilingualism, biliteracy, and academic language and content in two languages. FLAG/Armenian is a Heritage Language Magnet whose goal is to have students be literate in English and Armenian

Heritage Language Magnet

FLAG/Armenian

Students in FLAG/Armenian participate in a Heritage Language Magnet program. They receive the full English curriculum during the regular school day, with Armenian literacy classes during an extended day program. Due to the rigorous nature of the program and the length of the instructional day, all potential students are assessed to determine the probability of success in this demanding program. Heritage language programs are generally designed for students whose home language or heritage is that of the target language. All content is taught in English; the focus of Armenian instruction is reading and writing.
