

Students – Attendance

Interdistrict Permits

Students must attend school in the district where their parents or legal guardian reside. The Board of Education recognizes the need for, and provides for interdistrict transfers in special circumstances. The criteria for executing an interdistrict permit will be the same for students entering or leaving the Glendale Unified School District.

No permit will be issued to leave the Glendale Unified School District or accepted to enter the Glendale Unified School District without first having been cleared through the office of Student Support Services. All student exchanges between districts are based on contracts approved by the Board of Education.
