Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Glendale Unified School District (the District) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to in the aforementioned table of contents present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 18 to the financial statements, the District restated the July 1, 2016 beginning fund balance in the governmental fund statements for the recognition of bond proceeds held in escrow for future debt refunding. Our auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of the District's proportionate share of the net pension liability, schedule of District contributions, and schedule of postemployment healthcare benefits funding progress be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplementary schedules, combining non-major fund financial statements, the continuing disclosure information and the

Board of Education
Glendale Unified School District

schedule of expenditures of federal awards, as required by *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Costs Principles, and Audit Requirements for Federal Awards* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplementary sections, as listed in the table of contents, including the schedule of expenditures of federal awards, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary sections, as listed in the table of contents, including the schedule of expenditures of federal awards, are fairly stated in all material respects in relation to the financial statements as a whole.

The continuing disclosure information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 28, 2017 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

Introduction

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in its Statements No. 34 (Basic Financial Statements - and Management's Discussion and Analysis - for the State and Local Governments) issued June 1999. Certain comparative information between the current and the prior year is required to be presented in the MD&A.

The following discussion and analysis provides an overview of the financial position and activities of the District for the fiscal year ending June 30, 2017. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes thereto which follow this section.

Financial Highlights

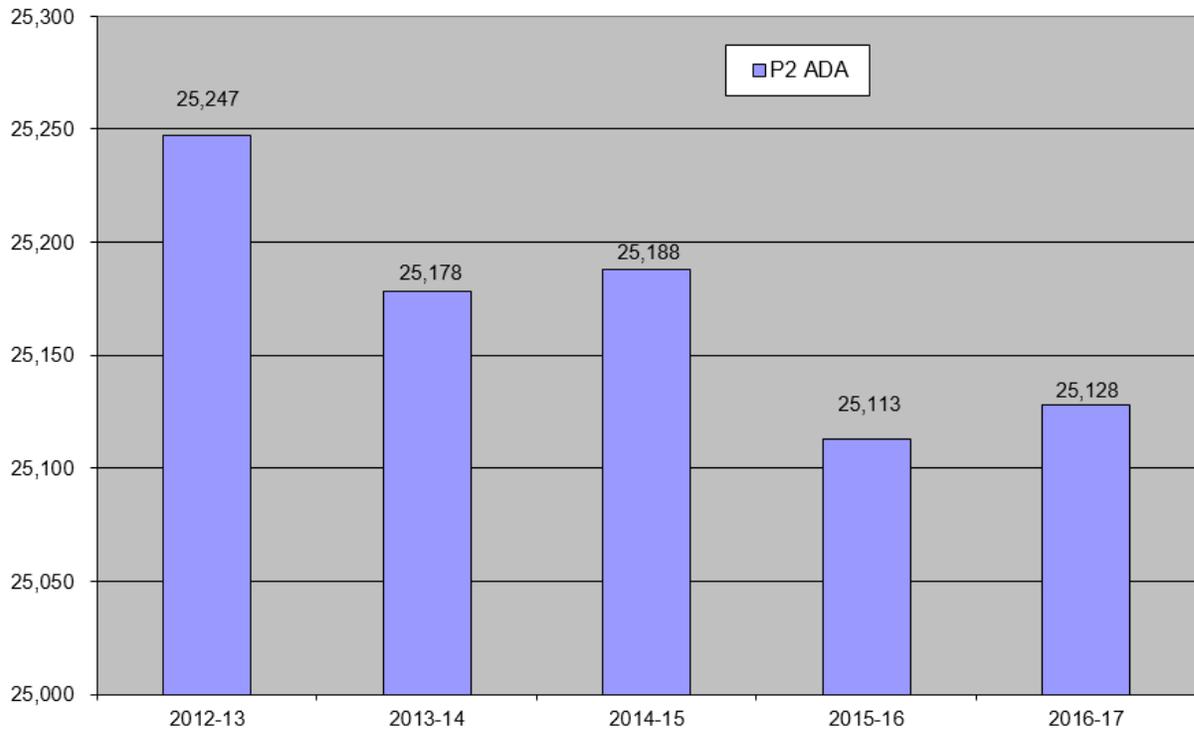

This section provides an overview of District financial activities.

- Combined Restricted and Unrestricted General Fund revenues were \$284,307,769 representing an increase of approximately 1.25% from the prior year. This increase is primarily due to Local Control Funding Formula (LCFF) revenue received in 2016-17. The LCFF eliminates Revenue Limit and almost all categorical programs (except those established by state initiative or federal statutes). The LCFF entitlement is based on the three key elements of base year funding in 2012-13, demographics of student population, and state appropriations for LCFF phase in over eight years. One of the monetary provisions of the LCFF that the State Board of Education (SBE) enacted in 2014-15, was requiring the County Office of Education (COEs) to review the Local Control Accountability Plan (LCAP), produced and adopted by school district which is concurrent and aligned with annual budget and spending plan. Funding allocated through the LCFF is largely unrestricted, but is subject to comprehensive accountability requirements established in LCAP.
- The District continues to maintain reserves sufficient to meet the state-required minimum Reserve for Economic Uncertainties of 3% of General Fund expenditures.
- Due to the state's fiscal issues and the subsequent impact on the District's fiscal health, the District has implemented changes to minimize the decrease in its fund balance to ensure solvency in future years. Some of these changes include implementing energy conservation strategies, consolidating facilities to eliminate rental fees, as well as, the impact of the state flexibility options and the transfer of monies from other funds.

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

- The District for the last several years has been experiencing declining enrollment. Between 2015-16 and 2016-17, there was a decrease in enrollment of 44 students. Since 2012-13, the P-2 ADA has dropped 119 students. This has a very direct impact on the District’s revenue since funding is based on student attendance (Average Daily Attendance - ADA). The chart below shows the District’s ADA for a five year period:

Student Average Daily Attendance

Fund Financial Statements

More detailed information about the District’s most significant funds are provided in the fund financial statements. Funds are accounting formats used to keep track of specific sources of funding and expenditures in particular programs. Some funds are required by bond covenants and by state law, and other funds are established by the District to manage a variety of activities for particular purposes (such as repaying its long-term debt). Other funds may also address specific accounting requirements for certain revenue and expenditure classifications (such as federal grants).

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

The District maintains three classes of funds:

Governmental funds: Most of the District's basic services are included in governmental funds, which generally categorize the revenues and expenditures for specific purposes and the balances left at year-end that are available for expenditure in subsequent years. The funds are as follows:

- Fund 01.0 - General Fund
- Fund 10.0 - Special Education Pass-Through Fund
- Fund 12.0 - Child Development Fund
- Fund 13.0 - Cafeteria Fund
- Fund 14.0 - Deferred Maintenance Fund*
- Fund 21.1 - Measure S Building Fund
- Fund 21.2 - Clean Renewable Energy Bond Fund
- Fund 25.0 - Capital Facilities Fund
- Fund 35.0 - County School Facilities Fund
- Fund 40.1 - Special Reserve Fund for Capital Outlay
- Fund 40.2 - Special Reserve Fund for Cafeteria Capital Outlay
- Fund 51.0 - Bond Interest and Redemption Fund
- Fund 56.0 - Debt Service Fund

*Due to GASB 54, this fund is reported in the General Fund.

A detailed short-term view is provided by the governmental fund statements. These help determine whether there are more or fewer financial resources that can be spent in the near future for financing the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, additional information is provided in the reconciliation provided after the governmental fund statements that explains the differences (or relationships).

Proprietary funds: The proprietary fund category includes Enterprise and Internal Service Funds. One type of proprietary fund, an internal service fund, is the same as the business-type activities, but provides more detail and additional information, such as cash flows. The Internal Service Fund reports activities that provide supplies and services for the other programs and activities of the District. Proprietary Funds are reported in the same way as the district-wide statements. Currently, the District has three internal service funds:

- Fund 67.0 - Medical Fund
- Fund 67.1 - Workers' Compensation Fund
- Fund 67.2 - Early Retirement Benefits Fund

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

Fiduciary funds: The District has two fiduciary funds, Foundation Trust Fund 73.0 and the cumulative Associated Student Body funds at the school sites. The capitalization of Fund 73.0 was initially established from a request of a former teacher leaving a portion of her estate to Hoover High School. In 2015-16, the Doug Dall Scholarship was set up in honor of the services of Doug Dall, retired principal of Clark Magnet High School. This scholarship is presented to a Clark student who has displayed a continuous pattern of academic growth, completed the recommended 100 hours of community service and the course requirements of one of Clark's Career Technical Education Pathways, and demonstrated a financial need to complete post-secondary education goals. Additionally, in 2010-11, the Michael F. Escalante Senior Scholar Award was established commemorating the service of Superintendent Dr. Michael F. Escalante. This award is presented annually to an outstanding senior from each one of the Glendale Unified high schools. For assets that belong to others, such as the scholarship fund and/or student activities funds, the District acts as the trustee, or fiduciary, and is responsible for ensuring that the assets reported in these funds are only used for their intended purpose and by those to whom the assets belong. A separate Statement of Fiduciary Net Position and a Statement of Changes in Fiduciary Net Position report the District's fiduciary activities. These activities are excluded from the district-wide financial statements, as the assets cannot be used to finance other District operations.

Statement of Net Position

The Statement of Net Position presents the assets and liabilities of the District as of the end of the fiscal year and is prepared using the accrual basis of accounting, which is similar to the accounting basis used by most private-sector organizations. The Statement of Net Position is a point of time financial statement whose purpose is to present to the readers a fiscal snapshot of the District. The Statement of Net Position presents end-of-year asset data (current and non-current), deferred outflows of resources, liabilities (current and non-current), deferred inflows of resources, and net position (assets and deferred outflows of resources minus liabilities and deferred inflows of resources).

From the data presented, readers of the Statement of Net Position are able to determine the assets available to continue the operations of the District. Readers are also able to determine the amount owed by the District to vendors and employees. Finally, the Statement of Net Position provides a picture of the net position and the availability of those funds for expenditure. Net position is one indicator of the current financial condition of the District, and the change in net position is an indicator of whether the overall financial condition has improved or worsened during the year. Assets and liabilities are generally measured using current values. One notable exception is capital assets, which are stated at historical cost less an allocation for depreciation. The net position is presented in three major categories. The first category provides the information in regards to equity in property, plant, and equipment owned by the District. The second category provides information on funds that are restricted for specific purposes and programs based on laws and regulations. The third category provides information on unrestricted net position that are available for obligations as may be approved by the Board of Education.

(*) The 2016 balances have been adjusted for the restatement of long-term liabilities and cash held in escrow for future bond refunding. See Note 18.

- Cash with the District is also detailed in the notes to the financial statements and is invested with the Los Angeles County Treasury to comply with various code restrictions. The Unrestricted General Fund cash balance increased by \$7.5 million. This was primarily due to the increase in GAP percentage. The net increase in cash for all the funds was approximately \$40.3 million or 18.1%.

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

- Accounts receivable are mainly accounts due from state and federal government sources for the general operating fund and categorical programs. The net decrease for all funds was approximately \$4.4 million or 31.9%. This is primarily due to fewer deferrals in federal and state funding.

Statement of Activities

Changes in total net position, as presented on the Statement of Net Position, are based on the activity presented in the Statement of Activities. The purpose of this statement is to present the revenues earned on all Governmental Funds, whether received or not, by the District, and the expenses incurred, whether paid or not, by the District. Thus, this statement presents the District's results of operations.

GLENDALE UNIFIED SCHOOL DISTRICT

MANAGEMENT'S DISCUSSION AND ANALYSIS

For the Fiscal Year Ended June 30, 2017

- The District's largest operating expenses are primarily for salaries and benefits. The District expended approximately 84% of its total Unrestricted General Fund budget in this area. Certificated and classified salaries are adjusted annually for step and column adjustments and corresponding savings due to attrition and retirements. For the current year, step increases were approximately 1.2% for certificated employees and classified employees.
- Health and Welfare benefits (medical, vision, dental and life) premium rates paid by the District increased approximately 10.0% for HMO and increased 2.0% for PPO in 2016-17 and are projected to have a net increase of 2.4% for HMO and a net increase of 6.7% for PPO in 2017-18, reflecting utilization shifts among the medical coverage groups and as changes in self-funded pharmacy benefits.
- Interest income of \$4,088,724 is considered general revenue. Of this amount in interest income, \$705,469 is from the General Fund. Interest income is generated by the cash invested with the Los Angeles County Treasury. The average quarterly interest rate for fiscal year 2016-17 was 1.10%. \$1,554,600 is interest earned on assets held with the escrow agent for current debt service on the 2015 General Obligation Refunding Crossover Bonds.
- The importance of the identification and planning for the costs associated with retiree medical benefits has been addressed by the Governmental Accounting Standards Board Statement No. 45.

Additionally, current state law (Chapter 650, Statutes of 1994) requires governing boards, on an annual basis, to certify to the county superintendent the estimated accrued but unfunded cost of health and welfare benefits provided to employees upon their retirement.

Every two years an actuarial analysis is required. The last actuarial was re-calculated for July 1, 2016 - June 30, 2017 utilizing the then current staffing and insurance rate. This service was provided by the firm Grant Thornton LLP. The report indicated that \$52.7 million represents the actuarial accrued liability associated with retiree benefits. This figure is \$7.5 million higher than the \$45.2 million figure estimated in the 2014-15 report. The 2014-15 report was based on the belief that the District's contribution to employee health insurance had a "cost" cap, meaning it would have an annual increase of 8.0% in future years. The 2016-17 report indicates that the current employee contracts will continue to have an 8.0% annual increase to the District's contribution for teachers and management. Approximately thirty percent (30%) of the 2016-17 cost estimate is related to current retirees and active employees who have met retiree medical eligibility requirements. The balance is for active employees who are not yet age fifty-five.

Significant Changes in Other Fund Balances from June 30, 2016 to June 30, 2017

Fund	Fund Balance		
	<u>June 30, 2016</u>	<u>June 30, 2017</u>	<u>Difference</u>
Fund 13.0 Cafeteria Fund	\$ 5,434,160	\$ 4,350,555	\$ (1,083,605)
Fund 21.1 & 21.2 Building Funds	55,694,707	80,859,460	25,164,753
Fund 25.0 Capital Facilities Fund	11,547,125	10,185,256	(1,361,869)
Fund 40.1 Special Reserve Fund for Capital Outlay	19,514,711	21,488,992	1,974,281
Fund 67.0 Medical Fund	3,955,728	4,428,386	472,658
Fund 67.1 Workers' Compensation Fund	1,672,709	1,857,482	184,773
Fund 67.2 Early Retirement Benefits Fund	552,507	593,287	40,780

Fund 13.0 Cafeteria Fund

The Cafeteria Fund decrease of \$1.1 million was primarily due to decrease in Federal and State Child Nutrition Program Revenues, as well as, the increased expenditures in salaries and benefits, supplies, and capital outlay. A majority of the increase in capital outlay expenditures is due to replacement of freezers at various school sites.

Fund 21.1 & 21.2 Building Funds

The Building Funds balance increase of \$25.2 million was primarily due to issuance of “Series C” bonds for \$70 million and CREBs third series for \$10.7 million, and offsetting increase of Capital Outlay and reduction of Interfund Transfer In from other funds.

Fund 25.0 Capital Facilities Fund

The Capital Facilities Fund balance decrease of \$1.4 million was primarily due to interfund transfers out of \$2.9 million and offsetting revenue in developer fees of \$1.5 million.

Fund 40.1 Special Reserve Fund for Capital Outlay

The Special Reserve Fund balance increase of \$2.0 million was due to net proceeds from Redevelopment Agency share for San Fernando Corridor and Central Interagency transfer from the General Fund (01.0).

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

Fund 67.0 Medical Fund

The purpose of this fund is to account for the dental and vision insurance plans that are self-funded by the District. This includes the Delta Dental coverage that is provided through a Joint Powers Authority (JPA). In 2016-17, the District maintained its dental program in Alameda County Schools Insurance Group (ACSIG) as a participating member of the Education Dental Group Enterprise (EDGE). The increase in the fund balance of \$0.5 million is primarily due to the more in-district premium/contributions compared to expenditures.

Fund 67.1 Workers' Compensation Fund

The District's coverage is through ASCIP at a 2.743% rate of payroll. There was no utilization of fund reserves in 2016-17. The Workers' Compensation Fund balance increased by \$185 thousand due to adjustments in Incurred But Not Reported (IBNR) liabilities for self-insured claims that occurred prior to 2005-06, and the decrease in the Workers' Compensation rate of payroll of .26%.

Fund 67.2 Early Retirement Benefits Fund

Fund 67.2 is restricted to accounting for the health insurance premiums the District pays for retirees. This fund was established to set aside monies for the current and future liability resulting from the District providing medical insurance to retirees. The Early Retirement Benefits fund balance increase of \$41 thousand is primarily due to the decrease in utilization of in-district premium contributions in 2016-17 with the rate of 1.298% applied to payroll. Funds are used to pay premium payments for retirees.

General Fund Budget

During the fiscal year, the Board of Education authorized revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. A budgetary comparison schedule for the General Fund (including the Deferred Maintenance Fund as required by GASB 54) is presented on page 54.

Variations between final budget amounts and actual results were a result of actions taken by the Board of Education to reduce or defer expenditures and increase income during the fiscal year. The 2016-17 student average daily attendance (ADA) increased by 15 ADA. Additionally, Outgoing Tuition of \$0.3 million consisted of Special Education excess costs to Burbank and La Canada Unified School Districts, and \$0.2 million for LACOE Specialized Schools. Approximately \$2.4 million of Interfund Transfers Out were related to Redevelopment Agency Revenues (RDA).

Variations between the original and final budget amounts were created by carry-over of funds, new funding for categorical programs, and other unanticipated revenues. These amounts were unknown at the time the original budget was adopted.

General Fund Budgetary Highlights

One of the challenges that school districts face is how to maintain credibility in the budgeting process when districts are dependent on state funding and the state funding is unstable. Even when the economy is strong, the state funding is not finalized until after districts are required to adopt their budgets; and in recent years, state funding has shifted during the fiscal year.

The following table compares the District’s adopted budget for the General Fund not including the Deferred Maintenance Fund. The \$11.4 million change in the General Fund ending balance (Adopted Budget versus Actuals) is primarily related to the net increase of revenues over expenditures. Components of the variances include \$0.9 million increase in Local Control Funding Formula (LCFF), and \$1.2 million increase in federal sources, the category “Other State Sources” increased by \$11.6 million, which is primarily due to \$1.2 million from California Career Pathways Grant, \$0.6 million for College Readiness Block Grant, \$0.2 million for Tobacco Use Prevention Education (TUPE), \$0.1 million for Career Technical Education Incentive Grant (CTEIG), \$0.2 million increase in State lottery, \$0.2 million in tuition of Mental Health Services, and \$9.1 million from the STRS On Behalf Pension Program as an offset to STRS expense. Revenue in local sources increased by approximately \$3.6 million, this is mainly due to deferred revenue from prior year of various local programs, receipt of family fees for self-supporting and self-supporting combined programs, and administration and school site donation revenues exceeding the original budget.

Decrease of \$1.8 million in certificated salaries and \$2.3 million in classified salaries are primarily due to salaries budgeted for General Education Teachers, teacher reserve, teachers’ substitutes, summer school and athletics program and special education, respectively. Employer benefits increase of approximately \$6.8 million is primarily due to STRS On Behalf Pension Program and the salary increases.

Increase of \$1.7 million in books and supplies and \$0.9 million in services and other operating services is mainly due to utilization of deferred revenues, carry-overs and additional funding to purchase textbooks and curriculum textbooks in different languages and contract services.

LOTTERY - Actual unrestricted lottery income in 2016-17 was \$144.83 per ADA. Currently, lottery income for years 2017-18 through 2019-20 is based on estimates from the California Department of Education and the Los Angeles County Office of Education. Projected unrestricted lottery income is now estimated at \$146 per ADA for 2017-18 and future years.

SPECIAL EDUCATION - The General Fund contribution in support of various Special Education programs in 2016-17 was approximately \$26.7 million. Additionally, the District contributed \$4.4 million to support Special Education Transportation.

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

ENDING FUND BALANCE PROJECTION - The District's 2017-18 ending fund balance is projected to meet the required 3% contingency reserve requirement.

LOCAL CONTROL FUNDING FORMULA - For several decades, state school financing has been based on the Revenue Limit formula and other state categorical funding. However, in 2013-14 the Governor and Legislature made a radical shift and replaced most of these old funding models with the new Local Control Funding Formula (LCFF). The Governor's goals by creating the LCFF are to increase transparency, reduce complexity, reduce administrative burden, improve funding equity across school districts, and improve local accountability. To attain these goals, the LCFF eliminates revenue limits and almost all categorical programs (except those established by state initiative or federal statutes), establishes base grants for four grade spans, and establishes supplemental/concentration grants to provide supplemental services to low income and English learner students.

A school district's LCFF entitlement will be based on three key elements as follows:

- A. Base year funding in 2012-13
- B. Demographics of its student population
- C. State appropriation for LCFF phase in over eight year

In general, it is more advantageous for a school district under the LCFF if its base funding for 2012-13 is below the statewide average, the proportion of students qualifying for the supplemental/concentration grants is above the statewide average (demographics), and the state provides a significant amount for LCFF growth in a given year.

In Glendale, the LCFF funding model is advantageous for the District because our base funding for 2012-13 was below the statewide average, and the proportion of our students qualifying for the supplemental/concentration grants is above the statewide average, approximately 54.69% of our students are in this category for the straight 3-year average.

The funding basis under the LCFF shifts from a primarily Average Daily Attendance (ADA) model to one that places emphasis on the student population/demographics, in addition to, the District's ADA. LCFF is a restoration funding model and full implementation is anticipated to occur by 2020-21.

Prior to the enactment of LCFF, annual increases in school district financing were fairly straight forward, with most funding based on per ADA allocations and statutory Cost of Living Adjustments (COLA) which were consistent for all districts. However, the eight-year implementation phase of LCFF poses major challenges. The different demographic composition of student populations will result in vastly different revenues from district to district and the statutory COLA no longer determines future funding increases. In summary, there is no longer a statewide standard for expected revenue growth in the form of an inflationary adjustment. Additionally, state budget priorities can change from year to year with no guarantee that LCFF growth will be provided or that it will be fully funded.

GLENDALE UNIFIED SCHOOL DISTRICT
MANAGEMENT’S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2017

In addition to adopting a new funding formula, the state establishes a set of new rules relating to “school district transparency and accountability”. Under the new rules, districts are required to adopt Local Control and Accountability Plans (LCAP) that disclose how funds will be spent to provide high-quality educational programs.

Funding allocated through the LCFF is largely unrestricted, but will be subject to comprehensive accountability requirements which are established in the Local Control Accountability Plan (LCAP).

The 2015-16 average funding per ADA was \$8,109 compared to 2016-17 of \$8,538 for an increase of \$429. The projected funding for 2017-18 is \$8,725, an additional increase of \$187.

The District’s 2016-17 Target Entitlement Calculation displays the per ADA components of the LCFF formula and what the District would receive if it were fully funded in 2020-21:

LCFF Factors
2016-17

Factors	TK-3	4-6	7-8	9-12
Base grant per ADA	\$7,820.00	\$7,189.00	\$7,403.00	\$8,801.00
% Enrollment eligible	54.69%	54.69%	54.69%	54.69%
54.69% of Supplemental	\$855.35	\$786.33	\$809.74	\$962.65
0.00% of Concentration (percentage above 55%)	\$0.00	\$0.00	\$0.00	\$0.00
Total 2015-16 LCFF Target Grant per ADA	\$8,675.35	\$7,975.33	\$8,212.74	\$9,763.65
ADA Grade Spans	7,793.32	5,763.20	3,773.79	7,821.21

Special Education, Child Nutrition, After School Education and Safety and other federally mandated programs remain outside of the LCFF formula. Transportation and TIIG funding continue as formula add-ons and the funding is frozen at the 2012-13 funding levels. Additionally, districts must expend no less on transportation than the amount expended in 2012-13.

LOCAL CONTROL AND ACCOUNTABILITY PLANS (LCAP) - In 2013-14, the state established a set of new rules relating to “school district transparency and accountability”. Under the new rules, districts are required to adopt Local Control and Accountability Plans (LCAP) that disclose how funds will be spent to provide high-quality educational programs. Districts that do not meet the goals stated in their plans and fail to improve educational outcomes receive assistance through support and intervention.

On or before July 1, 2014, and every three years thereafter, districts must adopt the LCAP using a template that will be adopted by the State Board of Education. The state requires the LCAP to include the following items:

- A. Annual Goals - Based on state priorities for all students and numerically significant subgroups.
- B. Specific Actions - Steps the district will take to accomplish the annual goals, including districtwide actions and actions by the school site.

Description of Expenditures - For each fiscal year of the plan, list and describe expenditures implementing specific actions included in the LCAP. List and describe expenditures serving “unduplicated” students and students re-designated as fluent English proficient

The eight areas of state priority that must be addressed in the LCAP include the following:

- A. Student Achievement
- B. Student Engagement
- C. School Climate
- D. Basic Services
- E. Implementation of Common Core State Standards
- F. Parental Involvement
- G. Course Access
- H. Other Student Outcomes

The District’s LCAP Goals are located on the web page (gusd.net). The District’s 2017-18 LCAP goals have also become the Board Priorities as listed below:

1. Maximize Student Achievement.
2. Create a culture of learning.
3. Increase engagement.

COMMON CORE STATE STANDARDS (CCSS) - In 2013-14, the State Budget provided \$1.25 billion statewide in one-time funds for the implementation of Common Core State Standards (CCSS). This resulted in approximately \$5.26 million in funding for the District to be utilized over a two year period, 2013-14 and 2014-15, and develop a spending/implementation plan to spend the funds for the following purposes:

- A. Professional Development - For teachers, administrators and paraprofessional educators or classified employees involved in the direct instruction of pupils that is aligned to the CCSS academic content standards.
- B. Instructional materials and supplemental instructional materials aligned to CCSS academic content standards.
- C. For the integration of the content standards through technology based instruction for the purposes of improving the academic performance of pupils including the administration of computer-based assessments and providing adequate internet connectivity to support the computer-based assessments.

In 2016-17 and 2017-18, the District continues to invest in the implementation of Common Core Standards through the Unrestricted General Fund and solvency transfer from Debt Service Fund.

HEALTH AND WELFARE FUND – 67.0 – For the 2017-18 school year, the District “carved-out” the pharmaceutical services from the incumbent health care provider and is now self-funded. Pharmaceutical services will be administered by MedImpact effective October 1, 2017.

UNRESTRICTED GENERAL FUND – SOLVENCY PLAN – BUDGET SAVINGS – 2017-18 – In the 2017-18 June Budget Adoption, there were expenditure reductions for solvency savings projected at \$7.6 million for 2017-18 and another \$6.1 million in 2018-19 to ensure that the District will be solvent in the next three years. Due to a higher than projected ending balance in 2016-17, revised LCFF funding variables, and revised one-time discretionary funding, there will be future budget adjustments in 2017-18 to the multiyear projected budget. A board approved fiscal stabilization plan was submitted to Los Angeles County Office of Education (LACOE) with the 2017-18 Proposed Budget. In the fiscal stabilization plan, the Board of Education identified the specific areas to reduce, up to the \$7.6 million of ongoing expenditures and increased revenues.

A continuous analysis of the Solvency Savings Plan will be done to monitor the actual savings and to modify, change, or increase savings as needed.

Construction in progress	59,051,802	
Depreciable assets, net	<u>447,466,582</u>	519,217,356

Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in governmental funds. Long-term liabilities at year-end consist of:

General obligation bonds	(394,587,532)	
Clean renewable energy bonds (CREB)	(14,994,483)	
City of Glendale loan	(1,302,035)	
Net pension liability	(247,389,742)	
Other postemployment benefits other than pensions (OPEB)	(18,608,222)	
Early retirement incentive	(745,325)	
Compensated absences	<u>(3,214,581)</u>	(680,841,920)

In governmental funds, deferred outflows and inflows of resources are not reported because they are applicable to future periods. Deferred outflows and inflows of resources at year-end consist of:

Deferred charge on refunding	5,343,128	
Deferred outflows - pensions	53,553,982	
Deferred inflows - pensions	<u>(12,288,670)</u>	46,608,440

An internal service funds is used by the District to cover the cost of self insured health programs, such as dental and vision benefits and workers' compensation. The assets and liabilities should be included with governmental activities. The fund consists of:

Assets	10,408,440	
Less: Liabilities	<u>(3,529,285)</u>	6,879,155

Interest expense related to general obligation bonds, CREB and City of Glendale loan was incurred but not accrued through June 30, 2017. (3,271,435)

Total net position - governmental activities 186,941,494

See accompanying notes to the financial statements.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES GOVERNMENTAL FUNDS For the Fiscal Year Ended June 30, 2017

Net change in fund balances - total governmental funds \$ 33,351,931

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, assets with an initial, individual cost of more than \$5,000 are capitalized and the cost is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	59,242,595	
Depreciation expense	<u>(8,810,798)</u>	
Excess of capital outlay over depreciation expense		50,431,797

Issuance of long-term debt is reported as proceeds in governmental funds but increases long-term liabilities in the statement of net position.

General obligation bonds	(70,000,000)	
Clean Renewable Energy Bonds (CREBS)	<u>(10,925,000)</u>	(80,925,000)

Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

General obligation bonds principal payments	9,535,000	
Clean renewable energy bonds principal payments	298,051	
City of Glendale loan principal payments	<u>120,114</u>	9,953,165

The prepayment of the 2017 annual early retiree incentive in 2016 is recognized as an expenditure in governmental funds in the current year. The amount was recorded as a reduction of the early retiree incentive liability in the statement of net position in the 2016 year.

745,325

In governmental funds, pension costs are recognized when the employer contribution is made, but in the statement of activities, pension costs are recognized on the accrual basis. The difference between accrual basis pension costs and actual employer contribution was:

Net increase in deferred outflows of resources - pensions	26,404,844	
Net increase in net pension liability	(40,570,301)	
Net decrease in deferred inflows of resources - pensions	<u>8,855,287</u>	(5,310,170)

Some items reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

These activities consist of:

Net increase in accrued interest	(661,594)	
Net increase in accreted interest	(7,138,638)	
Recognition of bond issuance costs	(457,482)	
Net increase in other postemployment benefits other than pensions (OPEB)	(3,117,117)	
Net increase in compensated absences	(136,230)	
Net decrease in deferred charge on refunding bonds	(611,829)	
Net increase in premium on general obligation bonds	<u>(3,797,014)</u>	(15,919,904)

An internal service fund is used by the District to charge the costs of self insured health programs, such as dental and vision. The net income of the internal service fund is reported with governmental activities.

GLENDALE UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District accounts for its financial transactions in accordance with the policies and procedures of the California Department of Education's *California School Accounting Manual*, updated to conform to the most current financial and reporting requirements promulgated by the California Department of Education. The accounting policies of the District conform to generally accepted accounting principles (GAAP) as prescribed by the Governmental Accounting Standards Board (GASB).

The significant accounting policies applicable to the District are described below.

Basis of Presentation

The accompanying financial statements have been prepared in conformity with GAAP as prescribed by GASB. The financial statement presentation required by GASB provides a comprehensive, entity-wide perspective of the District's financial activities. The entity-wide perspective enhances the fund-group perspective previously required. Fiduciary activities are excluded from the basic financial statements and are reported separately in the fiduciary fund statements.

The District's basic financial statements consist of government-wide statements, including a Statement of Net Position, a Statement of Activities, and fund financial statements.

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities displays information about the District as a whole. These statements include the financial activities of the primary government, including governmental activities of proprietary funds. Fiduciary funds are excluded.

The Statement of Net Position presents the financial condition of the governmental activities of the District at year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for each program or function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the District. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District. Depreciation and interest expense have not been allocated to specific functions.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Financial Statements

During the year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the District at this more detailed level. The focus of governmental fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The fiduciary and proprietary funds are reported by type.

The fund financial statement expenditures are presented in a function-oriented format. The following is a brief description of the functions:

Instruction: includes the activities directly dealing with the interaction between teachers and students.

Instruction-Related Services: includes supervision of instruction, instructional library, media and technology, and school site administration.

Pupil Services: includes home to school transportation, food services, and other pupil services.

Ancillary Services: includes activities that are generally designed to provide students with experiences outside the regular school day.

Community Services: includes activities that provide services to community participants other than students.

Enterprise Activities: includes activities that are financed and operated in a manner similar to private business enterprises, where the stated intent is that the costs are financed or recovered primarily through user charges. This function is used with self-insurance funds and retiree benefit funds.

General Administration: includes data processing services and all other general administration services.

Plant Services: includes activities of maintaining the physical plant. This also includes facilities acquisition and construction expenditures.

Other Outgo: includes transfers to other agencies.

Debt Service: includes principal and interest payments for long term debt.

GLENDALE UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The proprietary and fiduciary fund expenditures are presented by natural classification.

Fund Accounting

To ensure compliance with the California Education Code, the financial resources of the District are divided into separate funds for which separate accounts are maintained for recording cash, other resources and all related liabilities, obligations, and equities.

The Statement of Revenues, Expenditures and Changes in Fund Balance are statements of financial activities of the particular fund related to the current reporting period. Expenditures of the various funds frequently include amounts for land, buildings, equipment, retirement of indebtedness, transfers to other funds, etc. Consequently, these statements do not purport to present the result of operations or the net income or loss for the period as would a statement of income for a profit-type organization. The modified accrual basis of accounting is used for all governmental funds.

Governmental Funds – Major

General Fund: used to account for all financial resources except those required to be accounted for in another fund. The Deferred Maintenance Fund no longer meets the definition of a special revenue fund as it is no longer primarily composed of restricted or committed revenue sources. Therefore, all activities of this fund are reported in the General Fund.

Building Fund #21.1 and #21.2: used to account for the construction projects funded by the proceeds of voter approved bonds.

Debt Service Fund #56: used to account for the payment of principal and interest on the Certificates of Participation issued in 1996 and the activity maintained by the District and U.S. Trust. Used to account for the proceeds of the 2015 General Obligation Refunding Bonds, Series B (2021 Crossover) held in escrow by U.S. Bank National Association and the activity maintained by the escrow agent until the crossover date. (See Note 10).

Governmental Funds – Non-Major

Special Revenue Funds: used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects.

Special Education Pass-Through Fund #10: used by the Administrative Unit of the Foothill SELPA to account for Special Education revenue passed through to other member LEAs.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Child Development Fund #12: used to account for resources committed to child development programs.

Cafeteria Fund #13: used to account for revenues received and expenditures made to operate the District's cafeterias.

Capital Projects Funds: used to account for the financial resources that are restricted, committed or assigned for the acquisition and/or construction of major governmental general fixed assets.

Capital Facilities Fund #25: used to account for resources received from residential and commercial developer impact fees.

County Schools Facilities Fund #35: used to account for the construction projects funded by School Facility Program grants award for modernization and new construction of various school sites.

Special Reserve Fund for Capital Outlay Projects #40.1 and #40.2: used to account for specific funds designated by the Board for capital outlay, major deferred maintenance, major equipment replacement needs and the modernization of cafeteria facilities.

Debt Service Funds: used to account for the financial resources that are restricted, committed or assigned and the accumulation of resources for, the payment of general long-term debt principal, interest, and related costs.

Bond Interest and Redemption Fund #51: used to account for the payment of principal and interest on general obligation bonds.

Proprietary Funds

Self-Insurance Fund

Internal Service Fund: used to account for services rendered on a cost-reimbursement basis within the District. The District operates one internal service fund with three sub-funds as follows:

Medical Fund #67.0: used to account for resources committed to the District's medical insurance program.

Workers' Compensation Fund #67.1: used to account for resources committed to the District's self-insurance program for workers' compensation.

GLENDALE UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Early Retirement Benefits Fund #67.2: used to reserve for resources for the District's other postemployment benefits other than pensions (OPEB).

Fiduciary Funds

Foundation Trust Fund #73: used to account for income and restricted expenditures of trust monies donated for use by the Hoover High School Associated Student Body and the Michael F. Escalante Senior Scholarship Fund.

Associated Student Body Fund: used to account for raising and expending money to promote the general welfare, morale, and educational experiences of the student body. The District operates ten organized Associated Student Body funds.

Agency Activities

The District operates a warrant pass-through fund as a holding account for amounts collected from employees for federal taxes, state taxes, and other contributions. The District had a deficit cash balance in the County Treasury account amounting to (\$2,078,368) on June 30, 2017, due to prepayment of withholding payable.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied. Revenues in governmental fund financial statements are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures.

Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash in the County Treasury is recorded at cost, which approximates fair value.

GLENDALE UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and equivalents held with the refunding escrow agent have been classified as investments.

Receivables

Receivables are generally recorded when the amount is earned and can be estimated. All material receivables are considered fully collectible. Per Education Code Section 33128.1, a local education agency may recognize for budgetary and financial reporting purposes any amount of state appropriations deferred from the current fiscal year and appropriated from the subsequent fiscal year for payment of current year costs as a receivable in the current year.

Inventories

Inventories are presented at the lower of cost or market on an average basis and are expensed when used. Inventory consists of expendable supplies and food held for consumption. At June 30, 2017, the inventory for supplies was \$77,474 and the inventory for food was \$90,407.

Prepaid Expenses/Expenditures

Payments made to vendors for goods or services that will benefit periods beyond June 30, 2017, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense is reported in the year in which goods or services are consumed.

Capital Assets

Generally, capital assets result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the Statement of Net Position, but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The District maintains a capitalization threshold of \$5,000. The District does not own any infrastructure as defined by GASB. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

All reported capital assets except for land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

GLENDALE UNIFIED SCHOOL DISTRICT

**NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2017**

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Description</u>	<u>Estimated Lives</u>
Buildings and Improvements *	20-50 years
Equipment	5-20 years
Vehicles	8 years

* The District has chosen not to begin depreciation on building improvements until the fiscal year after completion of the project

Depreciation expense has not been allocated to functions in the government-wide statement of activities.

Deferred Outflows of Resources

Deferred outflows of resources represent a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. These amounts are reported in the government-wide statement of net position.

Deferred Charge on Refunding: A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

Deferred Outflows – Pensions: The deferred outflows of resources related to pensions results from the following and are recognized as follows:

- District contributions to employee pension plans subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.
- The net differences between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.
- All other deferred outflows will be amortized to pension expense over the estimated average remaining service lifetime of plan participants (EARSL) over closed periods. The EARSL is 7 years for CalSTRS and 3.9 years for CalPERS. The first year of amortization is recognized in pension expense in the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods.

Unearned Revenue

Cash received for federal and state special projects and programs is recognized as revenue to the extent that qualified expenditures have been incurred. Unearned revenue is recorded to the extent

GLENDALE UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

that cash is received for fees not earned.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as a liability when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Sick leave benefits are accumulated without limit for each employee. The employees do not gain a vested right to accumulated sick leave, therefore, accumulated employee sick leave benefits are not recognized as a liability of the District. The District's policy is to record sick leave as an operating expense in the period taken. However, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

Long-Term Obligations

The District reports long-term debt of governmental funds at face value in the government-wide financial statements. Long-term debt and other obligations financed by proprietary funds are reported as liabilities in the appropriate funds.

Bond premiums are deferred and amortized over the life of the bonds using the straight-line method. General obligation bonds are reported net of the applicable bond premium.

In the fund financial statements, governmental fund types recognize bond premiums, as well as bond issuance costs, during the current period. The face amount of debt issued and premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenses.

Net Pension Liability

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Deferred Inflows of Resources

Deferred inflows of resources represent an acquisition of net assets by the District that is applicable to a future reporting period. The deferred inflows of resources related to pensions results from the following and are amortized to pension expense as follows:

- The net differences between projected and actual earnings on plan investments is amortized over a five year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period and the remaining amount is deferred and will be amortized over the remaining four-year period.
- All other deferred inflows will be amortized to pension expense over the estimated average remaining service lifetime of plan participants (EARSL) over closed periods. The EARSL is 7 years for CalSTRS and 3.9 years for CalPERS. The first year of amortization is recognized in pension expense in the year the gain or loss occurs. The remaining amounts are deferred and will be amortized over the remaining periods.

Net Position

Net position represents the difference between assets plus deferred outflows of resources less liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. Net position is reported as restricted when there are limitations imposed on use through external restrictions imposed by donors, grantors, laws or regulations of other governments or by enabling legislation adopted by the District.

Fund Balance Classification

The governmental fund financial statements present fund balance classifications that comprise a hierarchy based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact.

Restricted: Amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts that can be used only for specific purposes pursuant to constraints imposed

by formal action of the District Board of Education. These amounts cannot be used for any other purpose unless the District Board of Education removes or changes the specified use by taking the same formal action (vote or resolution) that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned: Amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. The District's Board of Education, through a formal action has given authority to the Superintendent to assign amounts for a specific purpose that is neither restricted nor committed.

Unassigned: The residual fund balance for the General Fund and all other spendable amounts.

Spending Order Policy

The District considers restricted amounts to have been spent when an expense is incurred for purposes for which both restricted and unrestricted net position or fund balance is available.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District's policy considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the District's Board of Education has provided otherwise in its commitment or assignment functions.

Minimum Fund Balance Policy

The District has adopted a minimum fund balance policy in order to protect against revenue shortfalls and unexpected one-time expenditures. The policy requires a reserve for economic uncertainties consisting of unassigned amounts which represent the minimum recommended reserve consistent with the criteria and standards for fiscal solvency adopted by the State Board of Education. The minimum recommended reserve for a district this size is 3% of budgeted General Fund expenditures and other financing uses.

State Apportionments

Certain current year apportionments from the state are based upon various financial and statistical information of the previous year. Second period to annual corrections for local control funding formula and other state apportionments (either positive or negative) are accrued at the end of the fiscal year.

GLENDALE UNIFIED SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Property Taxes

Secured property taxes attach as an enforceable lien on property as of January 1st. Taxes are payable in two installments on November 1st and February 1st. Unsecured property taxes are payable in one installment on or before August 31st.

Real and personal property tax revenues are reported in the same manner in which the county auditor records and reports actual property tax receipts to the California Department of Education. This is generally on a cash basis. A receivable has not been recognized in the General Fund for property taxes due to the fact that any receivable is offset by a payable to the state for local control funding formula purposes. Property taxes for debt service purposes have been accrued in the government-wide financial statements.

On-Behalf Payments

GAAP requires that direct on-behalf payments for fringe benefits and salaries made by one entity to a third party recipient for the employees of another, legally separate entity be recognized as revenue and expenditures by the employer government. The State of California makes direct on-behalf payments for retirement benefits to the State Teachers' Retirement System on behalf of all school districts in California. The amount of on-behalf payments made for the District has been recorded in the fund financial statements.

Contributed Services

Generally accepted accounting principles require that contributions of donated services that create or enhance non-financial assets or that require specialized skills, are provided by individuals possessing those skills, and would typically need to be purchased if not provided by donation, are to be recorded at fair value in the period received. Although the District receives numerous hours of volunteer time, it is not deemed necessary to record these hours on the books of the District based on the above guidelines. In addition, the District receives donations of immaterial equipment and supplies which are not recorded upon receipt.

Classification of Revenues – Proprietary Funds

Proprietary funds distinguish operating revenues from non-operating revenues. Operating revenues include activities that have the characteristics of exchange transactions, such as food service sales, Federal and most state and local grants and contracts, and self-insurance premiums. Non-operating revenues include activities that have the characteristics of non-exchange transactions that are defined as non-operating revenues by GASB.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Reporting Entity

The District is the level of government primarily accountable for activities related to public education. The governing authority consists of elected officials who, together, constitute the District Board of Education.

The District considered its financial and operational relationships with potential component units under the reporting entity definition of GASB. The basic, but not the only, criterion for including another organization in the District's reporting entity for financial reports is the ability of the District's elected officials to exercise oversight responsibility over such agencies. Oversight responsibility implies that one entity is dependent on another and a financial benefit or burden relationship is present and that the dependent unit should be reported as part of the other.

Oversight responsibility is derived from the District's power and includes, but is not limited to: financial interdependency; selection of governing authority; designation of management; ability to significantly influence operations; and accountability for fiscal matters.

Due to the nature and significance of their relationship with the District, including ongoing financial support of the District or its other component units, certain organizations warrant inclusion as part of the financial reporting entity. A legally separate, tax-exempt organization should be reported as a component unit of the District if all of the following criteria are met:

- The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the District, its component units, or its constituents.
- The District, or its component units, is entitled to, or has the ability to otherwise access, a majority of the economic resources received or held by the separate organization.
- The economic resources received or held by an individual organization that the District, or its component units, is entitled to, or has the ability to otherwise access, are significant to the District.

Based upon the application of the criteria listed above, the following potential component units have not been included in the District's reporting entity:

GLENDALE UNIFIED SCHOOL DISTRICT

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended June 30, 2017

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Los Angeles County Schools Regionalized Business Services Corporation: The corporation is a legally separate entity formed for the purpose of acquiring equipment and capital outlay and then leasing such items to the District and other participating districts. Only the activity related to the District has been included in these financial statements.

Glendale Educational Foundation: The foundation is a separate not-for profit corporation formed to enrich and enhance the programs and projects of the District. The foundation has been excluded as a component unit because the economic resources received and held by the foundation are not significant for financial reporting purposes to the District.

Various PTA, PTO and Booster Clubs: Each of these types of organizations at each of the school sites within the District were evaluated using the three criteria listed above. Each entity has been excluded as a component unit because the third criterion was not met in all cases; the economic resources received and held by the PTA, PTO and the Booster Club individually are not significant to the District.

NOTE 2: BUDGETS

By state law, the District's Governing Board must approve a budget no later than July 1st, using the Single Adoption Budget process. A public hearing must be conducted to receive comments prior to adoption. The District's Governing Board satisfied these requirements. Budgets for all governmental funds were adopted on a basis consistent with GAAP.

These budgets are revised by the District's Board of Education during the year to give consideration to unanticipated income and expenditures. The original and final revised budget for the General Fund is presented in a budgetary comparison schedule in the required supplementary section.

Formal budgetary integration was employed as a management control device during the year for all budgeted funds. Expenditures cannot legally exceed appropriations by major object account.

NOTE 3: DEPOSITS AND INVESTMENTS

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. Although the District does not have a deposit policy for custodial risk, the District has a practice to obtain collateralization letters from all depository institutions. As of June 30, 2017, \$3,437,833 of the District's bank balance of \$4,589,252 was exposed to credit risk as it was uninsured and collateral was held by the pledging bank's trust department, not in the District's name. In addition, amounts held in escrow of \$84,373,081 are both uninsured and

uncollateralized.

Cash in County

In accordance with Education Code Section 41001, the District maintains substantially all of its cash in the Los Angeles County Treasury as part of the common investment pool. The District is considered an involuntary participant in the investment pool. These pooled funds are recorded at amortized cost which approximates fair value. Fair value of the pooled investments at June 30, 2017 is measured at 99.4047% of amortized cost. The District's deposits in the fund are considered to be highly liquid.

The county is authorized to deposit cash and invest excess funds by California Government Code Sections 53534, 53601, 53635, and 53648. The county is restricted to invest time deposits, U.S. government securities, state registered warrants, notes or bonds, State Treasurer's investment pool, bankers' acceptances, commercial paper, negotiable certificates of deposit, and repurchase or reverse repurchase agreements. The funds maintained by the county are either secured by federal depository insurance or are collateralized. The county investment pool is not required to be rated. Interest earned is deposited quarterly into participating funds. Any investment losses are proportionately shared by all funds in the pool.

The county investment pool is not registered as an investment company with the Securities and Exchange Commission (SEC) nor is it an SEC Rule 2a7-like pool. California Government Code statutes and the County Board of Supervisors set forth the various investment policies that the County Treasurer follow. The method used to determine the value of the participant's equity withdrawn is based on the book value, which is amortized cost, of the participant's percentage participation on the date of such withdrawals.

The pool sponsor's annual financial report may be obtained from the Los Angeles County Public Affairs Office, Kenneth Hahn Hall of Administration, 500 W. Temple St, Room 358, Los Angeles, CA 90012.

Investments with Refunding Escrow Agent

The District's investment activity managed by the debt refunding escrow agent are governed by the Escrow Deposit and Trust Agreement (the Agreement). The Agreement defines the types of securities authorized, including term to manage interest rate risk, and credit quality and concentration to manage credit risk. Investments are selected to provide adequate earnings to pay interest due on the refunding bonds through and including the redemption date.

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The three levels of the fair value hierarchy are as

NOTE 10: GENERAL OBLIGATION BONDS

On June 3, 1997, the voters approved the issuance of bonds (Measure K), not to exceed \$186,000,000 for the construction, improvement, alteration and rebuilding of education facilities within the District.

Between 1997 and 2004, the District issued bonds, Series A through G, totaling \$186,000,000. In 2009-2010, the District issued two refunding bonds (Refunding Bonds 2009 and 2010) to current refund Series A, B and C and advance refund portions of Series D. In 2011-2012, the District issued two refunding bonds (Refunding Bonds 2011 and 2012) to advance refund portions of Series E, F and G.

On April 5, 2011, the voters approved the issuance of bonds (Measure S), not to exceed \$270,000,000 for the construction, improvement, alteration and rebuilding of education facilities

On August 4, 2011, the District issued Series A, A-1 and A-2, totaling \$53,999,985. Series A-1 was issued as “New Clean Renewable Energy Bonds” and intends they be “Specified Tax Credit Bonds” which makes the District eligible for a refundable credit from the United States Treasury. On August 26, 2014, the District issued Series B, totaling \$70,000,000.

On October 14, 2015, the District issued \$17,175,000 of 2015 Refunding Bonds, Series A. The proceeds were used to advance refund a portion of the District’s outstanding 2009 Refunding Bonds through the deposit of the proceeds, including a premium of \$3,098,958 to an escrow fund. The principal balance of \$17,175,000 will be redeemed in full on September 1, 2019, by the refunding escrow agent.

On October 14, 2015, the District issued \$84,830,563 of 2015 Refunding Bonds, Series B (2021 Crossover). The District intends to apply the net proceeds of the sale of the bonds on the crossover date, 9/1/2021, at a redemption price equal to the outstanding principal thereof, plus accreted interest to the 2011 Bonds, Series A (2011 Refunding Bonds). Until the crossover date, the net proceeds of the 2021 Crossover Bonds will be held with a fiscal agent and invested in certain federal securities that will provide for the payment of interest on the bonds through the crossover date. On the crossover date, funds on deposit with the fiscal agent will be applied to the redemption of the 2011 Refunded Bonds. The difference in cash flow requirements will amount to a savings of \$22,461,200. The present value of the economic gain to the District will amount to \$11,208,479.

On August 18, 2016, the District sold \$70 million of General Obligation Bonds (Measure S), Series C. The bonds were sold with an interest rate of 2.0% to 4.0% and have a final maturity in September 2039.

The balance of all of the bonds refunded was \$9,260,500 less than the amount paid into the escrow account. This amount is recorded as a deferred charge on the statement of net position and amortized to interest expense over the life of the new debt. Amortization of \$611,829 was recognized during 2016-2017.

The outstanding general obligation bonded debt of the District at June 30, 2017 is as follows:

NOTE 11: CLEAN RENEWABLE ENERGY BONDS (CREBS)

On October 1, 2012 the District entered into a long-term lease agreement to provide for the financing of the acquisition, construction and installation of solar photovoltaic systems at several school sites. The agreement is between the District as the “lessee” and the Public Property Financing Corporation of California, as the “lessor”. The lessor’s funds for acquiring these items were generated by the issuance of \$5,380,000 of Clean Renewable Energy Bonds (CREBS). The

lease was issued with an effective interest rate of 4.32%. CREBS are long-term debt instruments which provide federal tax credits in lieu of a portion of the traditional bond interest, resulting in a lower effective interest rate for the borrower.

On October 18, 2016, the District issued \$10,925,000 of Clean Renewable Energy Bonds (“CREBs”) to wholly finance the turn-key procurement of solar photovoltaic facilities to be constructed at nine District campuses, with an aggregate generation capacity of approximately 2.44 megawatts (the “2016 Solar Project”). The CREBs will be repaid over a term of 17.4 years at a net effective interest rate (after federal subsidy) of 0.574%. The District entered into contracts with SunPower Corporation for the design, permitting, construction, operation and maintenance of the 2016 Solar Project Phase 5, and the construction is estimated to end in December 2018.

NOTE 13: EARLY RETIREMENT BENEFITS

In 2012-2013, the District elected to provide a voluntary early retirement program for 121 qualified employees. For certificated employees, the employee must be at least age 55 with 5 years of District service or age 50 with 30 years of service. For classified employees, the employee must be at least age 50 with 5 years of District service. The employee will receive contributions that equal 50% of the employees' final base pay.

The estimated accumulated future contributions to the retirement plan for retirees at June 30, 2017 are \$745,325, which is included in the government-wide statements. This amount will be paid in 2017-18.

NOTE 14: POST EMPLOYMENT HEALTHCARE BENEFITS

Plan Description and Eligibility

The District administers a single-employer defined benefit healthcare plan (the Retiree Health Plan). The plan provides health, dental and vision benefits to the following:

- Retirees aged 55 to 65 with at least 10 years of service, who were designated as Teachers at retirement, are offered a subsidy by the District for medical coverage for the retiree and his or her dependent(s). Dental and vision coverage is subsidized by the District for the retiree only.

Management who retire from the District are eligible for postemployment medical, dental and vision pursuant to the provisions below:

- Retirees aged 55 to 65 with at least 9 years of service, who were designated as Management at retirement, are offered a subsidy by the District for medical coverage for the retiree and his or her dependent(s). Dental and vision coverage is subsidized by the District for the retiree only.

NOTE 14: POST EMPLOYMENT HEALTHCARE BENEFITS

As of the valuation date, one management retiree is receiving a lifetime subsidy equal to the actual cost of his healthcare benefits.

Classified staff who retire from the District are eligible for postemployment medical and dental pursuant to the provisions below:

- Retirees aged 55 to 65 with at least 9 years of service, who were designated as Classified at retirement, are offered a subsidy by the District for medical and dental coverage for the retiree only. The District offers a subsidy for dependents of retirees enrolled in a specific dental plan sponsored by the District.
- Part-time employee's subsidy is prorated based on a percent of scheduled hours worked, not less than 50% of a full-time equivalent.

Board Members elected prior to January 1, 1995, who retire from the District are eligible for postemployment medical and dental pursuant to the provisions below:

- Retirees aged 55 to 65 with at least 12 years of service, who were designated as Board Members at retirement, are offered a subsidy by the District for medical coverage for the retiree and his or her dependent(s). Dental coverage is subsidized by the District for the retiree only.

The Retiree Health Plan does not issue a separate financial report.

Funding Policy

The District currently finances benefits on a pay-as-you-go basis. The District contributes for retirees the costs of current year premiums up to the amount paid for active employees. For the year ended June 30, 2017, the District contributed \$2,998,343 to the plan which includes an implicit rate subsidy.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed, and changes in the OPEB obligation:

2017	6,115,460	49.0%	18,608,222

Funding Status and Funding Progress

As of July 1, 2016, the most recent actuarial valuation date, the plan was unfunded. The actuarial accrued liability for benefits as well as the unfunded actuarial accrued liability (UAAL) was \$52,679,613. The covered payroll (annual payroll of active employees covered by the plan) was \$130,655,540, and the ratio of the UAAL to the covered payroll was 40.3%. Although the plan has no segregated assets, the District does maintain an early retirement benefits sub-fund in the Self-Insurance Fund to designate resources for retiree health care costs. At June 30, 2017, the fund's designated balance was \$593,287.

Actuarial valuations of an ongoing benefit plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of postemployment healthcare benefits funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets, if any, is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, if any, consistent with the long-term perspective of the calculations.

In the July 1, 2016 actuarial valuation, the unit credit actuarial cost method was used. The actuarial assumptions included a 5% investment rate of return (net of administrative expenses) which is a blended rate of the expected long-term investment returns on plan assets and on the employers own investments calculated based on the funded level of the plan at the valuation date, and an annual healthcare cost trend rate of 5% for 2016 and later years. The actuarial value of assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period. The UAAL is amortized as a level dollar amount on a closed basis over thirty years.

NOTE 15: EMPLOYEE RETIREMENT PLANS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

As of June 30, 2017, the District's proportionate share of the net pension liabilities, pension expense, and deferred inflows of resources and deferred outflows of resources for each of the retirement plans as follows:

Pension Plan	Proportionate Share of Net Pension Liability	Deferred Outflows of Resources	Deferred Inflows of Resources	Proportionate Share of Pension Expense

California State Teachers' Retirement System (CalSTRS)

Plan Description

The District contributes to the State Teachers' Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

Benefits Provided

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes to the STRP Defined Benefit Program and STRP Defined Benefit Supplement Program, thus disclosures are not included for the other plans.

The STRP provisions and benefits in effect at June 30, 2017, are summarized as follows:

Contributions

Required member, District and State of California contribution rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. The contribution rates for each plan for the year ended June 30, 2017 are presented above and the total District contributions were \$15,334,380.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

	Balance June 30, 2017
Proportionate Share of Net Pension Liability	
District proportionate share of net pension liability	\$ 186,026,300
State's proportionate share of the net pension liability associated with the District	105,917,046
Total	\$ 291,943,346

The net pension liability was measured as of June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2016, the District's proportion was 0.2300%.

For the year ended June 30, 2017, the District recognized pension expense of \$18,386,612. In addition, the District recognized revenue and corresponding expense of \$10,237,997 for support provided by the state. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension Deferred Outflows and Inflows of Resources		
Pension contributions subsequent to measurement date	\$ 15,334,380	\$ -

NOTE 15: EMPLOYEE RETIREMENT PLANS

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. The net remaining deferred resources will be recognized to pension expense as follows:

Year Ending June 30,	Amortization
2018	\$ 3,346,145

Actuarial Methods and Assumptions

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2015 used the following methods and assumptions, applied to all prior periods included in the measurement:

Actuarial Methods and Assumptions	
Valuation Date	June 30, 2015
Measurement Date	June 30, 2016
Experience Study	July 1, 2006 through June 30, 2010
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.60%
Investment Rate of Return	7.60%
Consumer Price Inflation	3.00%
Wage Growth	3.75%

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on RP2000 series tables adjusted to fit CalSTRS experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant. Based on the model for CalSTRS consulting actuary's investment practice, a best estimate range was determined by assuming the portfolio is re-balanced annually and that the annual returns are lognormally distributed and independent from year to year to develop an expected percentiles for the long-term distribution of annualized returns. The assumed asset allocation is based on board policy for target asset allocation in effect

on February 2, 2012, the date the current experience study was approved by the board. Best estimates of 20-year geometric real rates of return and the assumed asset allocation for each major asset class used as input to develop the actuarial investment rate of return are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-term Expected Real Rate of Return
Global equity	47%	6.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Fixed income	12%	0.30%
Absolute return/risk mitigating strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.60%. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.60%) and assuming that contributions, benefit payments, and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount rate	Net Pension Liability
1% decrease (6.60%)	\$ 267,733,800
Current discount rate (7.60%)	186,026,300
1% increase (8.60%)	118,164,800

California Public Employees Retirement System (CalPERS)

Plan Description

Qualified employees are eligible to participate in the Schools Pool Plan under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. The plan provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least 5 years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2017, are summarized as follows:

NOTE 15: EMPLOYEE RETIREMENT PLANS

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are determined through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2017 are as presented above and the total District contributions were \$5,361,874.

Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions

As of June 30, 2017, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$61,363,442. The net pension liability was measured as of June 30, 2016. The total pension liability for CalPERS was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015 and rolling forward the total pension liability to June 30, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2016, the District's proportion was 0.3107%.

For the year ended June 30, 2017, the District recognized pension expense of \$7,248,740. At June 30, 2017, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 5,361,874	\$ -
Difference between expected and actual experience	2,639,216	-
Changes of assumptions	-	1,843,606
Difference in proportion	705,951	2,096,118
Net differences between projected and actual earnings on plan investments	9,521,633	-
Total	\$ 18,228,674	\$ 3,939,724

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability

in the year ended June 30, 2017. The net remaining deferred resources will be amortized as follows:

Year Ending June 30,	Amortization
2018	\$ 943,328
2019	1,358,543
2020	4,140,143
2021	2,485,062
Total	<u>\$ 8,927,076</u>

Actuarial Methods and Assumptions

Total pension liability for the Schools Pool Plan was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2015, and rolling forward the total pension liability to June 30, 2016. The financial reporting actuarial valuation as of June 30, 2014 used the following methods and assumptions, applied to all prior periods included in the measurement:

<u>Actuarial Methods and Assumptions</u>	
Valuation Date	June 30, 2015
Measurement Date	June 30, 2016
Experience Study	July 1, 1997 through June 30, 2011
Actuarial Cost Method	Entry Age Normal
Discount Rate	7.65%
Investment Rate of Return	7.50%
Consumer Price Inflation	2.75%
Wage Growth	Varies by entry age and service

Mortality assumptions are based on CalPERS specific membership data and mortality rates resulting from the most recent CalPERS experience study adopted by the CalPERS Board. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 7.65%. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount rate	Net Pension Liability
1% decrease (6.65%)	\$ 91,554,597
Current discount rate (7.65%)	61,363,442
1% increase (8.65%)	36,223,364

Plan Fiduciary Net Position

Detailed information about CalPERS School Employer plan fiduciary net position is available in a separate comprehensive annual financial report. Copies of the CalPERS annual financial report may be obtained from the CalPERS Executive Office, 400 P Street, Sacramento, CA 95814.

NOTE 16: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has established an Internal Service Fund to account for and finance certain employee benefits.

The following provides a brief description for each coverage provided through the Internal Service Fund:

Dental

Dental benefits are provided on a self-funded basis.

All eligible employees of the District participate in the program and the District makes payments to the fund based on a maximum annual benefit of \$1,500 per member. This amount is estimated to be sufficient to pay prior and current year claims and to establish a reserve for catastrophic losses.

Vision

Vision benefits are provided on a self-funded basis.

All eligible employees of the District participate in the program and make payments to the fund based on actuarial estimates of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses.

Workers' Compensation

The Self-Insurance Fund provides coverage for up to a maximum of \$250,000 – \$750,000 dependent upon the original claim year prior to June 30, 2005. Beginning July 1, 2005 the District is fully insured for worker's compensation. The District purchases commercial insurance for claims in excess of coverage provided by the Fund and for all other risks of loss. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years. Funding of the self-insured open claims is based upon a settlement from the Schools Linked for Insurance Management (SLIM) joint powers agreement when the District withdrew in 2008-2009. Additional funding for the Self-Insurance Fund is based on estimates of the amounts needed to pay current year premiums to ASCIP, a JPA.

Claims Liability

At June 30, 2017, the District accrued the claims liability in accordance with GAAP which requires that a liability for claims be reported if information prior to the issuance of the financial

NOTE 17: JOINT POWERS AGREEMENTS

The District participates in two joint power agreement (JPA) entities, West San Gabriel Valley Liability and Property Joint Powers Authority (WSGLPJPA) and Alliance of Schools for Cooperative Insurance Programs (ASCIP). WSGLPJPA provides the participating districts with liability and property damage insurance; and ASCIP handles insurance coverage for health benefits for District employees

Each JPA is governed by a board consisting of a representative from certain member districts. Each governing board controls the operations of its JPA independent of any influence by the District beyond any representation the District may have on the governing boards.

Each JPA is independently accountable for its fiscal matters. Each JPA maintains its own accounting records. Budgets are not subject to any approval other than that of the respective governing boards. Member districts share surpluses and deficits proportionately to their participation in the JPA. Separate financial statements for each JPA may be obtained from the respective entity.

The relationships between the District and the JPAs are such that none of the JPAs is a component unit of the District for financial reporting purposes.

The July 1, 2016 beginning fund balance of the Debt Service fund (#56) has been restated by \$84,373,081 to record the proceeds, net of debt issue costs, of the 2015 General Obligation Refunding Bond, Series B (2012 Crossover) held with the refunding escrow agent. Additionally, the July 1, 2016 beginning balance of general obligation bonded debt reported in Note 9 has been restated for the related outstanding debt of \$84,830,563.

NOTE 19: COMMITMENTS AND CONTINGENCIES

Litigation

The District is involved in claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the District's financial statements.

State and Federal Allowances, Awards, and Grants

The District has received state and federal funds for specific purposes, including reimbursement of mandated costs, which are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, it is believed that any required reimbursement will not be material.

County School Facilities Funds

The District is currently involved in several modernization projects funded through the County School Facilities Fund. These projects are subject to future audits by the state, which may result in adjustments to the fund.

Construction Commitments

As of June 30, 2017, the District was committed under various capital expenditure purchase agreements for construction and modernization projects totaling approximately \$37 million. Projects will be funded through general obligation bond proceeds, County School Facilities funds, Capital Facilities funds, Special Reserve Fund for Capital Outlay funds, and General Funds.

NOTE 20: SUBSEQUENT EVENT – REAL PROPERTY EXCHANGE AGREEMENT

The Board of Education, at its meeting on August 15, 2017, as amended on October 24, 2017, approved an Exchange Agreement with Carmel Partners Realty Investors, LLC (Carmel Partners) providing for the exchange of District-owned property located at 223 N. Jackson Street and 316 W. Palmer Avenue in Glendale, California (“District Property”) for property owned by Carmel Partners at 425 East Colorado Street, Glendale, California (“Carmel Property”). In addition, the District will pay \$5,000,000 to Carmel Partners at the close of escrow. At the close of escrow the District and Carmel Property will enter in to a lease agreement for a limited period of time, not to exceed sixteen months, at \$62,500 per month. This agreement will allow the District to transition its administrative activities to the new property. As of the date of this report, November 28, 2017, the property exchange was in escrow.

NOTE 21: GOVERNMENTAL ACCOUNTING STANDARDS BOARD STATEMENTS ISSUED, NOT YET EFFECTIVE

The Governmental Accounting Standards Board (GASB) has issued pronouncements prior to June 30, 2017, that have effective dates that will impact future financial presentations; however, the impact of the implementation of each of the statements below to the District’s financial statements has not been assessed at this time.

Statement No. 75 – Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

This statement was issued in June 2016 and establishes standards for governmental employer recognition, measurement, and presentation of information about OPEB. The statement also establishes requirements for reporting information about financial support provided by certain non-employer entities for OPEB that is provided to the employees of other entities. The statement is effective for the fiscal year 2017-18.

Statement No. 83 – Certain Asset Retirement Obligations

Issued in November 2016, this statement addresses accounting and financial reporting for certain

asset retirement obligations (ARO). An ARO is a legally enforceable liability associated with the retirement of tangible capital assets. The statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources. The statement is effective for the fiscal year 2019-20.

Statement No. 84 – Fiduciary Activities

Issued in January 2017, this statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activities and (2) the beneficiary with whom a fiduciary relationship exists. The statement is effective for the fiscal year 2019-20.

Statement No. 85 – Omnibus 2017

This statement was issued in March 2017 and addresses practice issues that have been identified during implementation and application of certain GASB Statements. This statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). The statement is effective for the fiscal year 2017-18.

Statement No. 86 – Certain Debt Extinguishment Issues

This statement was issued in May 2017 and addresses accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources – resource other than the proceeds of refunding debt – are placed in an irrevocable trust for the sole purpose of extinguishing debt. This statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance. The statement is effective for the fiscal year 2017-18.

Statement No. 87 – Leases

This statement was issued in June 2017 and addresses accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The statement is effective for the fiscal year 2020-21.

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Budgetary Comparison For The General Fund

A budgetary comparison is presented for the general fund. This schedule presents the budget as originally adopted, the revised budget as of the fiscal year end, actual amounts at fiscal year end, and any adjustments needed to present the amounts in accordance with generally accepted accounting principles (GAAP).

Schedules of District's Proportionate Share of the Net Pension Liability – CalSTRS (STRP) and CalPERS (Schools Pool Plan)

The schedule presents information on the District's proportionate share of the net pension liability, the plans' fiduciary net position and, when applicable, the State's proportionate share of the net pension liability associated with the District. In the future, as data becomes available, 10 years of information will be presented.

Schedules of District Contributions – CalSTRS (STRP) and CalPERS (Schools Pool Plan)

The schedule presents information on the District's required contribution, the amounts actually contributed and any excess or deficiency related to the required contribution. In the future, as data becomes available, 10 years of information will be presented.

Schedule of Postemployment Healthcare Benefits Funding Progress

The schedule is intended to show trends about the funding progress of the District's actuarially determined liability for postemployment benefits other than pensions.

NOTE 2: EXCESS OF EXPENDITURES OVER APPROPRIATIONS

There were no excesses of expenditures over appropriations in the General Fund.

GLENDALE UNIFIED SCHOOL DISTRICT

HISTORY AND ORGANIZATION For the Fiscal Year Ended June 30, 2017

Public education in the Glendale area dates back to 1879 with the formation of the Sepulveda School District. During the next 20 years, three districts - Glendale, West Glendale and Crescenta were carved from the original Sepulveda boundaries. In 1901 a high school district was added, followed by a junior college district in 1927. All of these districts were consolidated to become the Glendale Unified School District on July 21, 1936. Eventually, Glendale Community College formed its own district in 1981.

The area of the Glendale Unified School District is approximately 35 square miles and has remained the same for at least the past 100 years. The District currently operates one preschool, 20 elementary schools, four middle schools, five senior highs including a continuation high school, a development center for multi-disabled students, one community day school and one site for multiple intervention programs.

The Board of Education and the District Administrators for the fiscal year ended June 30, 2017 were as follows:

GLENDALE UNIFIED SCHOOL DISTRICT

NOTES TO THE SUPPLEMENTARY INFORMATION For the Fiscal Year Ended June 30, 2017

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Average Daily Attendance (ADA)

Average daily attendance is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

Schedule of Instructional Time

The District has not met or exceeded its target funding and has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of Education Code Sections 46200 through 46206.

Schedule of Expenditures of Federal Awards

Basis of Presentation

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the District under programs of the federal governmental for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of operations of the District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the District.

Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. The District did not use the 10-percent de minimis indirect cost rate as allowed under Uniform Guidance

GLENDALE UNIFIED SCHOOL DISTRICT

**NOTES TO THE SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2017**

NOTE 1: PURPOSE OF SCHEDULES

Schedule of Financial Trends and Analysis

The *2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule be prepared showing financial trends of the general fund over the past three fiscal years as well as the current year budget. This report is intended to identify if the District faces potential fiscal problems and if they have met the recommended available reserve percentages.

Schedule of Charter Schools

The *2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* requires that this schedule list all charter schools chartered by the District and inform the users whether or not the charter school information is included in the District's financial statements.

Reconciliation of Annual Financial and Budget Report with Audited Financial Statements

This schedule provides the information necessary to reconcile the fund balances of all funds as reported on the annual Financial and Budget Report form to the audited financial statements.

Board of Education
Glendale Unified School District
Glendale, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Glendale Unified School District (the District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the District’s basic financial statements, and have issued our report thereon dated November 28, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District’s internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District’s internal control. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL

AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District’s financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE UNIFORM GUIDANCE**

Board of Education
Glendale Unified School District
Glendale, California

Report on Compliance for Each Major Federal Program

We have audited Glendale Unified School District's (the District) compliance with the types of compliance requirements described in the U.S. Office of Management and Budget *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2017. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**INDEPENDENT AUDITOR’S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON
INTERNAL CONTROL OVER COMPLIANCE REQUIRED
BY THE UNIFORM GUIDANCE**

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District’s internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance, for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District’s internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies in internal control over compliance such that there is a reasonable possibility, that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Board of Education
Glendale Unified School District
Glendale, California

We have audited the Glendale Unified School District's (the District) compliance with the types of compliance requirements described in the *2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel for the year ended June 30, 2017. The District's state compliance requirements are identified in the table provided.

Management's Responsibility

Management is responsible for compliance with the state laws and regulations as identified below.

Auditor's Responsibility

Our responsibility is to express an opinion on the District's compliance based on our audit of the types of compliance requirements referred to below. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, and the *2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the specific areas listed below has occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion on state compliance. However, our audit does not provide a legal determination of the District's compliance.

INDEPENDENT AUDITOR’S REPORT ON STATE COMPLIANCE

INDEPENDENT AUDITOR'S REPORT ON STATE COMPLIANCE

Opinion on State Compliance

In our opinion, the District complied with the laws and regulations of the state programs referred to above in all material respects for the year ended June 30, 2017.

Purpose of this Report

The purpose of this report on state compliance is solely to describe the results of testing based on the requirements of the *2016-17 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, published by the Education Audit Appeals Panel. Accordingly, this report is not suitable for any other purpose.

2016-001 Unduplicated Local Control Funding Formula Pupil Counts 40000

Criteria: Education Code section 42238.02(b)(2) requires a school district or charter school to submit its enrolled free and reduced-price meal eligibility, foster youth and English learner pupil level records for enrolled pupils using the California Longitudinal Pupil Achievement Data System (CalPADS). The CalPADS reports should accurately report the number of students in the categories as identified above.

Condition: 410 students that qualified for reclassification from the English learner status during the current reporting period were reported as English learners in the CalPADS report inappropriately. The students' status in the English learner tracking system was properly updated.

Effect: The District was not in compliance with Education Code section 42238.02(b)(2). The 1.17 and 1.18 reports contained errors as follows:

Cause: A procedure was not in place to update and reconcile the CalPADS data for changes in student status.

Questioned Costs and Units: The impact on the local control funding formula calculated resulted in an estimated overstatement of revenue of \$382,000 which the District has already reflected in the financial statements.

Recommendation: We recommend the District implement additional review procedures to ensure that errors are prevented in future CalPADS reporting.

Status: Implemented

Facilities and Personnel

The District's facilities currently include five senior high schools, including a continuation high school, four middle schools, twenty elementary schools, one preschool, one development center for multi-disabled students, a community day school, and a site devoted to multiple intervention and special education programs, a professional development center, maintenance and warehouse site, District administration offices, and an excess site that is leased.

Assessed Valuations

The District uses the facilities and services of the County for the assessment and collection of taxes. District taxes are collected at the same time and on the same tax rolls as are the County, City and Special District taxes. Assessed valuations are the same for both District and County taxing purposes. The following tabulation is the latest ten-year summary of the District's assessed valuation before deduction of the homeowners' and business inventory exemptions.
