Lincoln Vehicle and Pedestrian Traffic Flow

2019-2020

Friendly Reminders for Drop Off & Pick Up

- Parking is not available on Altura Avenue at 7:30am-9:00am and 12:30pm-3:30pm in the designated drop off/pick up lane
- The front of the school on New York Avenue is not a drop off or pick up zone
- For student safety, student pick up and drop off is not available in “No Parking”, red zones, intersections, or crosswalks
- Vehicles should follow traffic rules at all intersections surrounding campus, including Altura Avenue, New York Avenue, and Maryland Avenue
- To maintain safety, Glendale PD will cite for failing to follow traffic rules

Drop Off Success Plan

- As you approach the drop off lane, backpack and belongings should be ready to go. This is the perfect time to wish your student(s) a great day!
- To enhance traffic flow, pull forward as much as possible
- Once in the cone zone, student(s) should exit the vehicle in a timely manner and walk directly into the gate
- Vehicles leaving the cone zone should follow traffic flow and avoid blocking the drop off lane

Pick Up Success Plan

- Students wait in designated areas and must stay behind the yellow line until the vehicle comes to a complete stop
- If the student is not present when the vehicle reaches the cone zone, the vehicle must proceed around the block and re-enter the pick-up lane
- To encourage a continuous pick up line, Lincoln staff will remind vehicles they are unable to wait in the pick-up lane on Altura Avenue
- Primary grade students who have older siblings will wait inside the gate on the lawn area

Walking Success Plan

- Students are encouraged to use the High Five plan for crossing at intersections, which means students will wait for at least 5 friends to cross as groups are more visible for safety purposes and allows for traffic to flow efficiently

Designated Waiting Areas

- Vehicle Waiting Area: Student(s) waiting for vehicle pick up will wait along the wall inside the yellow line
- Walker Waiting Area: Student(s) waiting to walk will wait along the wall at the top of the cone zone
