### SUMMARY OF PURPOSE OF FUNDS REQUESTED:

– Clearly summarize what you would like to do, how you want W.A.V.E. to help, and the benefit of this project to students/school. Use additional pages, if necessary.

To provide supplemental funding for Technology Consultant(s) to support all students, all classrooms, and all teachers with educational technology needs. Glendale Unified School District currently pays 15 hours per week for the school's Technology Assistant for the school year. The funding of this grant would go beyond these hours and allow for the Consultant(s) to manage, assist, and coordinate efforts in the computer lab as well as the Chromebook carts/mobile labs. They would also provide support to teachers with up to date information regarding technology, assistance with online programs, and robotics. This will allow our students to achieve a level of proficiency in keyboarding and technological skills as required by the Common Core State Standards.
