SUMMARY OF PURPOSE OF FUNDS REQUESTED:

I would like to have an LCD Projector to use along with a document camera that I intend to purchase with Joy of Giving funds. Many VW classes have been using projectors for several years.

When giving tests and assignments that show streamed materials and videos according to our Common Core types of questioning, it would be easier than showing my laptop to small groups.

I would also be able to show items off of Discovery Streaming and other programs to integrate with my curriculum. This is especially helpful to show presentations in Science and Social Studies like a non-fiction presentation of the Pilgrims and other topics.

By using a projector with a document camera, I can show realia in detail to the entire class (ie: ladybug larvae or seed parts etc etc). I can also use it daily to give examples/instruction of an activity so the children can better understand (showing how to make a unifix cube pattern, or counting with objects and other things that are difficult to demonstrate to a large group).

The school office would be purchasing the projector. The amount is approximately \$743.00 based on a previous order through our office.
