SUMMARY OF PURPOSE OF FUNDS REQUESTED:

The Community Courtyard Project at the Dads' Club will be a facility enhancement, and safety upgrade project benefitting every student at VW. The Dads' Club Foundation very respectfully requests this grant to help with the necessary funding to complete Phase One – the ADA compliant ramp and new patio/courtyard. We want every student to be able to fully utilize this improved space at the Dads' Club as soon as school is back in session after the winter break. This grant, in addition to the thousand's the Dads' Club Foundation has already secured, will ensure the successful and safe completion of Phase One before January 7, 2014. We have verbal sign-off from the City of Glendale and are in the middle of the permit approval process.

Since almost 100% of the VW student body, faculty, and staff utilize the DC for one activity or another, the DC has become an extension of the school's learning environment. We have just finished major upgrades to the interior of the building (new carpet, paint, etc.) and it is now time we focus our efforts on the exterior, and upgrade the space in a safe and aesthetically improved manner.

Thank you for your time and consideration.
