Dear W.A.V.E.:

I am requesting that we purchase a new filtered water fountain/bottle fill station because access to clean drinking water at school is so important. We use water fountains every day since not everyone is able to buy water bottles at school. What we put in our bodies has a big impact on our health. That's why it is important that all students be able to drink filtered water.

We have ten (10) water fountains at school. Only four of them are filtered. Three (3) of the four (4) filtered fountains are located at the new building, and one (1) is located at the 1,000 building (outside near the girls restroom). The rest of the fountains appear to be old, and taste horribly. Students complain about the water all the time.

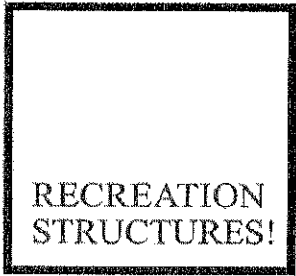

If we replace one of the old water fountains on the playground with a new one that has a fill station and filter, students will be able to drink clean, tasty, filtered water and fill their bottles at the same time. We would be able to use the water station during snack, lunch, PE, and throughout the day when we are at the playground or even while walking by. Another benefit is that it will encourage students to bring water bottles to school so it could help reduce the use of single-use plastic bottles on campus.

I am telling you right now, this will be the best \$2,000.00 (including possible cost of installation) you have ever spent at Verdugo Woodlands Elementary School.

Sincerely,

Matine Compani

WATER COOLER/BOTTLE FILLER

A172-BF12 Series

BARRIER-FREE, WALL MOUNTED, UNIVERSAL BI-LEVEL DRINKING FOUNTAIN WITH -BF12 SENSOR OPERATED BOTTLE FILLER

STANDARD FEATURES

Drinking Fountain

- Child or Adult ADA Compliant (when properly installed)
- All Metal, Granite Powder Coated Apron and One-Piece Bottom Wrapper
- Flexible, Low Flow, Antimicrobial, Anti-Rotation, Non-Squirt Bubbler
- Auto-Stop allows Cartridge and Strainer service without removing drinking fountain to access Water Supply Stop
- Universal Bi-Level can be installed left high or right high with no additional parts.
- Lead Free

Bottle Filler

- ADA Compliant
- 100-Mesh Inlet Strainer
- 120VAC/9.0VDC Plug-In Transformer
- Laminar Flow Water Supply
- Hands-Free Sensor Operation
- 1 GPM Fill Rate
- 20 Seconds Maximum Run Time

SUGGESTED SPECIFICATIONS

Drinking Fountain

Model A172100F-UBL is a self-contained, Vandal Resistant Bi-Level Drinking Fountain. Unit shall be activated from a Pushbutton in the front, using less than 5 pounds of force. Bubblers shall deliver 0.3 GPM flow, have a Flexible Guard with an integrally designed non-squirt feature and operate on a water pressure range of 20-105 PSIG. Basins shall be constructed from 304 Stainless Steel and have an Integral Drain. Cabinets shall be either Galvanized Steel with Granite Powder Coat or Stainless Steel. Unit is certified to ANSI A117.1, Public Law 111-380 (NO-LEAD), CHSC 116875 and NSF/ANSI 61, Section 9. Fixture meets ADA, ADA Standing Person, and ADA Child requirements when mounted appropriately.

Bottle Filler

Bottle Filling unit shall include Sensor Operated activation with a 20 second maximum run time. LED Lights illuminate the Bottle Fill area and brighten when a bottle is detected. Housing construction will be 20 gage Stainless Steel with a satin finish and will also include components manufactured from Antimicrobial, impact resistant ABS. Bottle Filler shall provide approximately 1 GPM flow rate with a Laminar Flow Spout to minimize splashing. Optional -BCD (Bottle Counter Display) indicates the quantity of 16 oz disposable Plastic Bottles saved from a land fill and also displays when the Water Filter needs to be replaced. Optional -WF1 has a 1500-gallon capacity, has NSF/ANSI 42 & 53 certification and reduces lead content in the drinking water by 99%.

Maintenance Advantage®
Water Cooler by Murdock Manufacturing

MODEL: (Must Specify)

FLEXIBLE BUBBLER

- A172100F-BF12 Granite Finish Cooler w/ Satin Finish Bottle Filler
- A172400F-BF12 Satin Stainless Finish (Shown)
